SACAA/ATO/1056

CABIN CREW LICENCE BRONZE PACKAGE – 11 WEEKS

Cabin Crew Members (commonly referred to as Flight Attendants or Air Hostesses) play a crucial role in ensuring the comfort, safety, and well-being of passengers aboard an aircraft. In South Africa, this profession is officially recognized as Cabin Crew.

Trained in handling security and emergency situations, Cabin Crew Members are also equipped to administer basic First Aid when necessary. Representing an airline in this capacity offers a unique and rewarding career opportunity.
As a Cabin Crew Member, you will not only be a safety officer on board, but also a dedicated Customer Service Professional. Your responsibilities will encompass all aspects of cabin safety, first aid, and customer care, making it a fulfilling and dynamic role.

Both males and females thrive in this career, and success is equally attainable for all. One of our directors spent many years flying for an international commercial airline before transitioning into aviation training, specifically preparing future aviators for the same career. Some of our instructors continue to fly for international airlines on their days off, further solidifying their real-world expertise.

Every day brings new challenges and experiences, ensuring that no two days are the same. Cabin Crew Members often reminisce about their adventures long after retiring and maintain a wide network of friends who share similar airline experiences and lingo.

With this qualification, you can pursue employment with a major airline or a chartered airline, both of which offer exciting career opportunities in the aviation industry.

Cabin Crew / Flight Attendant Career Requirements

To excel as a Flight Attendant or Cabin Crew Member, certain qualities and skills are essential:

- **Professional Grooming:** You must always maintain a polished and well-groomed appearance.
- **Empathy and Care:** The ability to demonstrate compassion and attentiveness to passengers is a key component of this role.
- **Responsibility and Confidence:** A responsible attitude and the ability to act with confidence in various situations are crucial.
- **Proficiency in English:** A good command of English, the international language of aviation, is essential for communication. *Mandatory requirement as per SACAA.*
- **Calm Under Pressure:** You must remain calm and composed during high-stress situations, ensuring the safety and comfort of passengers.

If you identify with the above qualities, a rewarding career as a Flight Attendant/Cabin Crew Member awaits you. At The Academy of Aviation, we offer a comprehensive training program designed to prepare you for this exciting career. Our **Cabin Crew Course (CCM)** is a 7-week, full-time classroom-based course accredited by the **South African Civil Aviation Authority (SACAA)**. The course complies with **South African Civil Aviation Regulations, Part 141 (ATO Registration No. SACAA/ATO/1056).**

We are proud to offer the highest standards of Cabin Crew training, achieving a 99.7% pass rate in exams held at the SACAA offices in Midrand, Johannesburg, at the end of the course. All training, assessments, remediation, and moderation are conducted by **SACAA-accredited instructors,** in full alignment with regulatory standards.

Our training adheres to both **local and international aviation standards**, and our qualification is **internationally recognised**. Throughout the program, students will undergo both theoretical and practical assessments to ensure they are fully equipped for their career in aviation.

- You always need to be well groomed.
- You must have the ability to show empathy and care.
- You must be responsible and confident.
- You must have a good command of the international language English.
- You must remain calm and composed during a highly stressed situation.

If the above sounds like you, then a career as a Flight Attendant/Cabin Crew will be for you. Here at The Academy of Aviation we offer you a full training Course CCM (Cabin Crew Course) is a **7 Week Full Time Classroom based course**, that is accredited by the SACAA (South African Civil Aviation Authority), we train in terms of the South African Civil Aviation Regulations part 141 (ATO Registration No. SACAA/ATO/1056).

Many students are eager to enrol in the course; however, some may not have the financial means to do so. Unfortunately, we do not offer bursaries.

You are welcome to secure external funding independently, and we will gladly accept a bursary obtained through your own efforts.

As a private institution, we are unable to accept NSFAS funding, which is restricted to public (government) institutions.

Please note that we are a licensed Training Organisation, not a licensed Financial Institution.

Financial Assistance and Loan Options

We collaborate with various licensed financial institutions, including Student Hero and FUNDI Loans, to offer financial support to our students. Each institution has its own eligibility criteria and will assist you by providing the necessary information and application forms. These forms must be completed by your parent/guardian or a family member. Below are the specific requirements for applying for a ***FUNDI Loan***:

FUNDI Loan Requirements:

- The applicant must be employed full-time. (Parent or family member)
- A letter confirming employment.
- Recent 3 months' bank statements.
- A recent payslip.
- A certified copy of the South African Identity Document.
- A minimum basic salary of R8,000.00 (Eight Thousand Rand).
- A clear credit history.

You can contact us to get the consultant allocated to our institutions details to assist you. We will then forward the completed documents along with an acceptance letter to FUNDI Loans, who will contact the applicant directly. Upon approval, FUNDI will make payment directly to The Academy of Aviation, and the applicant will be responsible for making monthly payments to FUNDI Loans.

For ***STUDENT HERO LOANS***, which work by applying to multiple banks to determine where you qualify, you can apply online by clicking on the following link: https://www.studenthero.co.za/the-academy-of-aviation or use the portal chat: https://chats.landbot.io/v3/H-935955-9JFHJS525K0SZZBC/index.html.

You are also welcome to approach your own bank or loan provider for financing.

For students who do not qualify for a loan, we offer a flexible payment option for the duration of the course. Please note that this arrangement must be strictly adhered to and is subject to specific terms and conditions. As we are not a licensed financial institution, this is the fullest extent to which we are able to assist.

Failure to make payments timeously will result in the student being removed from the course.

About Us

As an organisation, we are deeply passionate about the aviation industry and the diverse career opportunities it offers. Our instructors are fully qualified by the South African Civil Aviation Authority (SACAA), and alongside the directors of the academy, they bring a wealth of experience from years of working within the aviation sector. Located in Honeydew, Johannesburg, Gauteng, South Africa, we have been a trusted name in aviation training since 2008.

We take great pride in delivering exceptional training that equips learners with a deep understanding of the aviation industry and prepares them for successful careers. Our academy is renowned as the "Premier Aviation Academy in Africa," and we are committed to providing *"Training Excellence With A Difference."*

Our state-of-the-art training facilities are designed to offer hands-on learning experience, with access to various aircraft and equipment. This allows learners to interact directly with the tools and technology they will use in their careers, providing them with a significant advantage when entering the workforce.

At our academy, we offer affordable dormitory accommodation on-site, providing a convenient and focused environment for our learners. With dormitories located just a short walk from the training rooms, students can avoid the distractions and time constraints of daily commuting. This proximity fosters collaboration, allowing learners to form study groups in the evenings and weekends, where they can review lessons, prepare for assessments, and access training equipment for practical applications.

Through our extensive experience, we have observed that learners who stay on-site consistently outperform those who commute daily. The ability to immerse oneself fully in the aviation training environment—without the stress of traffic and daily challenges - significantly enhances focus and retention. For the duration of their course, our learners live, eat, and breathe aviation.

Our campus provides a peaceful and conducive learning environment, featuring numerous study areas and opportunities to engage with nature, offering a mental refresh during study breaks. Although we maintain a structured and disciplined atmosphere in line with SACAA regulations, we also foster a sense of community and camaraderie among students, ensuring a balanced approach to learning. We are committed to pushing every learner to their limits, helping them achieve their ultimate goal in the aviation industry.

Staying at our academy allows for personal growth, the development of lifelong friendships, and an understanding of diversity. Learners learn to navigate interpersonal differences and manage emotional intelligence to ensure their success.

As South Africa's Premier Aviation Academy, we invite future aviators to join our family, excel in their studies, and proudly represent our brand.
